

सभी जातियों के लिए ।

निर्देश को ध्यानपूर्वक पूरा अवश्य पढ़ें।

भर्ती की तिथि- 29 से 30 अप्रैल 2025

AT ARMY CAMP, MILE STONE-5, GANGTOK, SIKKIM

आवेदन-पत्र डाउनलोड हेतु वेबसाइट-
www.rojgarkikhoj.com

भर्ती रैली

इंडियन आर्मी, सिक्किम

भर्ती स्थल:- आर्मी कैंप, माइल स्टोन-5, गंगटोक, सिक्किम

सेना में पोर्टरों की भर्ती

योग्यता-पढ़ना लिखना आता हो।

केवल पुरुष

मूल्य 50/-रूपये

आवेदन शुल्क कुछ नहीं

सेना पोर्टर कम्पनी के लिए 600 पोर्टर (पुरुष) पूर्वी सिक्किम (केवल सिक्किम और पश्चिम बंगाल के निवासी) में श्रमिक कार्य के लिए कुलियों की सीधी भर्ती। इच्छुक व्यक्ति नीचे बताए संबंधित स्थानों पर उपस्थित हों:-

Date	Location
29 April 2025 (Male)	ARMY CAMP.
30 April 2025 (Male)	Mile Stone-5, Gangtok, Sikkim
Timing	07.00 AM

पद
600

क्रम	पद का नाम	पद सं०	आयु	वेतनमान	योग्यता
01.	पोर्टर	600	18-40	30240/-	साक्षर

आयु सीमा- आयु की गणना 07 मई 2025 को उम्र 18 से 40 साल के बीच हो।

आवेदक ध्यान दें:- आवेदन पत्र अपने शहर के फार्म विक्रेता से प्राप्त करें। या जन सेवा केन्द्र/ई-मित्र द्वारा वेबसाइट : www.rojgarkikhoj.com से डाउनलोड कर सकते हैं।

नोट:- रैन कोट / छाता आवेदक साथ लेकर आयें।

आवेदक साथ लेकर पहुंचें:-

- शैक्षिक योग्यता के प्रमाण पत्र (सर्टिफिकेट) की प्रतिलिपि।
- जन्म तिथि हेतु साक्षर या 5वीं से 10वीं का प्रमाण पत्र की प्रति हो।
- कापी मूल निवास प्रमाण पत्र की प्रतिलिपि साथ हो।
- 12 पासपोर्ट साईज रंगीन फोटो साथ लेकर जाएं।
- 4 फोटो निकटतम रिश्तेदार के साथ लायें।
- चिकित्साधिकारी द्वारा प्रमाणित किया हुआ स्वस्थ प्रमाण पत्र।
- निकटतम पुलिस थाने से पुलिस जांच प्रमाण पत्र साथ हो। (6माह से पुराना नहीं हो)
- भारतीय स्टेट बैंक की पास बुक / चेक की फोटो कापी साथ हो।
- सरपंच/प्रधान द्वारा प्रमाणित आधार कार्ड/वोटर कार्ड/राशन कार्ड की प्रति 06 फोटो कापी साथ हों।
- शारीरिक रूप से स्वस्थ हो।
- आवेदक भारत का नागरिक होना चाहिए।
- आवेदक को 28 अप्रैल 2025 को पहुंचना है। ताकी 3 माइल टीसीपी पास बनवाना होगा।

यदि आपके शहर में आवेदन पत्र उपलब्ध नहीं है तो इस वेबसाइट से आवेदन पत्र डाउनलोड करें

www.rojgarkikhoj.com

Offline Form

इस भर्ती रैली का आवेदन-पत्र डाउनलोड कर सकते हैं।

www.rojgarkikhoj.com पर

और किसी भी कम्प्यूटर से निकलकर अपनी दुकान पर बेच सकते हैं। या थरके भेज सकते हैं।

सरकारी वैकेन्शी हेतु वाट्सअप ग्रुप से जुड़ें

India's Elite Leap: How PM Modi's Vision is Propelling India into the Global Big League

Over the past decade, India has undergone a transformation that has reshaped its global standing; from a developing nation with potential to a powerhouse pushing boundaries across defence, space, and technology. The Modi government's relentless focus on self-reliance, innovation, and technological advancement through initiatives like Atmanirbhar Bharat and Make in India has propelled the nation into the elite echelons of cutting-edge technology and capabilities. By fostering a culture of indigenous research, strengthening public-private partnerships, and prioritizing strategic investments in science and technology, India is no longer just a participant but a pacesetter in the global arena.

This is not just a story of technological milestones; it's a story of ambition, global recognition, and India's irreversible march towards becoming a *Vishwaguru*.

Breakthroughs in Defense: Securing India's Future
India's defense sector has witnessed a paradigm shift, with the nation joining elite clubs through cutting-edge technologies that rival global superpowers. These milestones, driven by the DRDO and supported by the Modi government's focus on self-reliance, underscore India's readiness for modern warfare.

- In a historic breakthrough, recently India successfully conducted trials of a **laser-based directed energy weapon system** capable of disabling **fixed-wing and swarm drones**. With this, India has entered an elite group of **only four nations**, alongside the **United States, Russia, and China** that possess such advanced capability.¹
- Also in 2025, **India joins the elite club of nations testing an Active Cooled Scramjet for hypersonic missiles**.² The indigenous development of endothermic scramjet fuel, the first time in India, jointly by DRDL and industry is central to this breakthrough.³
- In a very significant development, the DRDO in November 2024 **test-fired the country's first long-range hypersonic missile** that can carry both conventional and nuclear warheads to a distance exceeding. The long-range missile is manoeuvrable and flies over five times the speed of sound. This is a historic moment and this significant achievement has put India in the group of **select nations** having capabilities of such critical and advanced military technologies.
- In 2024, **India joined the elite club of nations with Multiple Independently Targetable Re-entry Vehicle**

(MIRV) technology. The successful Agni-V test with MIRV technology enhances India's ability and power to deploy multiple nuclear warheads on a single missile, striking different targets.⁴

- In 2023, **India conducted a maiden flight trial of a sea-based endo-atmospheric interceptor missile**. The purpose of the trial was to engage and neutralize a hostile ballistic missile threat, thereby elevating the country into the elite club of nations having **Naval Ballistic Missile Defence (BMD)** capability.⁵
- In 2023, **India joined the elite club of nations with successful flight test of indigenous Unmanned Aerial Vehicle**. The successful flying demonstration of this autonomous stealth UAV is a testimony to maturity in the technology readiness levels in the country.⁶
- In 2019, through **Mission Shakti**, India successfully tested an anti-satellite missile, destroying a live satellite in low Earth orbit. This feat placed **India alongside the United States, Russia, and China** as one of the few nations with demonstrated ASAT capabilities.⁷ This strategic achievement underscored India's ability to safeguard its space assets in an increasingly contested domain.

Soaring in Space: India's Cosmic Ambitions

India's space program, led by the Indian Space Research Organisation (ISRO), has captivated the world with record-breaking missions and pioneering technologies. The Modi government's increased funding and reforms, have propelled India into the elite ranks of spacefaring nations.

- Recently, **India has successfully joined the elite group of four nations demonstrating satellite docking and undocking technology**, thanks to ISRO's **SpaDeX mission**. The undocking process succeeded on the first attempt after over 120 simulations, showcasing India's advanced technological capabilities in space exploration.⁸
- In 2023, **ISRO created history by being the first country to land on Moon's South Pole**. India has reached the South Pole of the Moon where no country in the world could reach to date. This made India the **fourth country in history to soft-land on the moon** after the United States, the Soviet Union, and China.⁹
- In 2022, **India became the sixth country in the world to have cryogenic engine manufacturing capabilities**. India inaugurated its highly-ambitious Integrated Cryogenic Engine Manufacturing Facility (ICME), which will cater to the entire rocket manufacturing and assembly under one roof for the Indian Space Research Organisation.¹⁰
- In 2017, **India became the first nation in the world to have launched over a hundred satellites in one mission**. ISRO continued to surprise the developed world with its out-of-the-box space missions that earned itself a distinct position among the space-faring nations. The country's workhorse PSLV in its 39th flight (PSLV-C37), elegantly blazed through the blue skies and successfully deployed 104 satellites into the designated orbit setting a new world record.¹¹

Beyond Defense and Space: A New Technological Frontier

India's ambitions extend to emerging domains, positioning it as a competitor among global tech leaders.

- With the announcement of **Semicon India**, the nation has entered the race to become a **semiconductor hub**, with investments from global tech giants and partnerships that place India among few nations seriously competing in chip manufacturing.
- By creating the **National Mission for Quantum**

Technology and Applications (NMQTA) in 2020, India formally entered the race for quantum computing. To keep up with China and the United States,¹² With over 6,000 crore allocated to the initiative, the Modi government is aggressively backing next-gen tech to build future-ready capabilities.¹³

Awareness programme on fire safety at Rangpo

SANJAY AGARWAL

RANGPO, April 15: Sikkim Fire and Emergency Service Rangpo organised an awareness programme regarding fire safety precautions at Rangpo Bazaar playground today.

The programme was attended by Rangpo Nagar Panchayat MEO Suren Tamang, other officers and staff, delegates from different industrial units, students from different schools, the public, and businessmen.

Fire Officer Lako D. Bhutia highlighted the fire safety measures to be taken during a fire incident.

Members from Civil Defence Rangpo also

attended the programme to know more about fire safety measures during the fire emergency, as they are the first responders in the area.

The Fire Officer-led team gave a demonstration on the use of fire safety equipment when faced with a fire emergency. The programme aimed to

provide clarity of mind on what to do and how to respond in such situations. The programme benefited students from various schools.

NFR recovers lost mobile phones using CEIR portal

SE Report

GANGTOK, April 15: The Northeast Frontier Railway (NFR) has made remarkable strides in tracing and recovering lost mobile phones with the help of the Central Equipment Identity Register (CEIR) portal.

Between April 20 and 27, proactive efforts have led to significant results in enhancing passenger safety and recovering valuable assets.

During this period, 528 mobile phones were

successfully traced, informs a press release.

The initiative highlights the growing role of technology in ensuring security and delivering prompt public service.

During this period, 528 mobile phones were successfully traced. Of these, 109 devices were recovered through coordinated efforts by the Railway Protection Force (RPF) and relevant authorities.

In addition to recovery, 21 individuals involved in the theft or illegal possession of

mobile phones were arrested. These arrests mark a crucial step in deterring mobile-related crimes and disrupting unlawful resale networks.

Most importantly, the recovered mobile phones were returned to their rightful owners, reflecting the system's effectiveness and the commitment of N.F. Railway to public service.

The N.F. Railway encourages passengers to report any lost or stolen mobile phones through Rail Madad. The RPF remains

dedicated to protecting passenger interests and ensuring secure travel experiences.

With continued efforts and public cooperation, the railway aims to further enhance safety and trust across its network. Release mentions.

Empanelment of Energy Auditors

Bureau of Energy Efficiency (BEE) seeks applications from experienced certified energy auditors (CEA) and Accredited Energy auditor (AEA) to play key role at selected MSME clusters to provide technical support and advisory services to the MSME enterprises.

The details of empanelment criteria (Educational Qualification, Age and Experience etc., are available at www.beeindia.gov.in.

The interested applicants fulfilling the eligibility criteria may submit their application at abhatnagar@beeindia.gov.in and a hard copy of application must be received by this office or before the due date at Bureau of Energy Efficiency, 4th floor, Sewa Bhawan, R.K. Puram, Sector-I, New Delhi 110066 within 3 days of the date of publication of the advertisement in newspaper.

Youth arrested with morphine

PRASHANT ACHARYA

SILIGURI, April 15: Khoribari police on Monday evening arrested a youth along with 205 grams of morphine while crossing River Mechaj along Indo-Nepal border near Panitanki.

The arrested youth is identified as Udit Rai and a resident of Singmari in Darjeeling. While crossing the river, the SSB jawans posted along the border intercepted him and later found 205 grams of morphine from his possession.

After interrogation, the SSB officers handed over the youth to Khoribari police for further course of action.

Police said that the arrested person will be produced before Siliguri court and a probe will be initiated to find out other persons if involved in the case.

The verdict will remodel the nation

SUDIPTA CHANDA

SILIGURI, April 15: The jitters wait is about to end. Now will come the hammerfall.

Come April 16 and the Supreme Court will hear petitions challenging the validity of the Waqf (Amendment) Act, 2025 – probably the most controversial issue in recent times.

After getting passed in both Houses of Parliament, President Droupadi Murmu gave assent to the Waqf (Amendment) Bill, 2025 on April 5.

The Bill is therefore an Act now and that lends it a certain degree of finality.

The question is will the hostilities that have broken out in several parts of the country, particularly West Bengal, end after hearing the issue reaches a logical conclusion?

Much would depend the political will of state governments, as they are custodians of law and order and their respective states.

Organizing a movement though, and keeping it democratic and peaceful takes time.

a lot of resolve, which can be a rare commodity when cheap popularity is available.

But, the most difficult part is to carry on with a movement for an indefinite period.

Movements require constant support of resources, including material, emotional and financial.

And when it is the responsibility of the convenors to ensure the demonstrations stay peaceful and on democratic lines – not stray into the realm of the unpleasant.

And when that cannot be assured, it does not stay a social demonstration anymore.

It becomes hooliganism and the cause for which the demonstrations are organized gets diluted, as dangerous elements take over.

example of such abuse.

Parts of the district erupted in flames and three persons were killed as vandalism took over in the name of opposing the Waqf (Amendment) Act, 2025.

Worse, all such happened right under the noses and knowledge of those who were leading such protest demonstrations.

Well, if this is the quality of leadership certain sections of the country's youth rely on or follow, the fear of civil unrest could be very real, for retaliatory strikes will come today or tomorrow.

The Centre, which in the meanwhile has filed a caveat application in the apex court urging to be heard in the case, appears confident that the top court would not comment on a legislative matter.

This because the

The petitioners challenging the Act, however, allege that the Act is discriminatory towards the Muslim community and violates their fundamental rights including the right to equality and the right to religious freedom.

Supporting the Act, however, the state governments of Assam, Rajasthan, Chhattisgarh and Maharashtra have simultaneously filed intervention applications in the Supreme Court.

Opposing the protesters' allegation that the Waqf Amendment Act was in violation of the Constitution, these states claim that the Act puts in place structural reforms, statutory clarity and procedural safeguards.

All now rests on the Supreme Court as the final

**JOB WITH ARMY
RECRUITMENT OF PORTERS**
